

SYPHILIS

**RATES ARE REALLY HIGH
GOOD TIME TO GET TESTED**

- You can have syphilis and not know it!
- You can get Syphilis when you have vaginal, oral and anal (bum) sex.
- Sores are painless and can be hard to spot.
- Syphilis is easily treated with antibiotics.
- If not treated during pregnancy, it can be passed to an unborn child.

**TO PROTECT YOURSELF,
USE A CONDOM OR SEX DAM
WITH ALL SEX ACTIVITY.**

GET TESTED.
