

SYPHILIS

RATES ARE REALLY HIGH
GOOD TIME TO GET TESTED

Syphilis is a sexually transmitted infection,
you can get it when you have:

- VAGINAL SEX
- ORAL SEX
- ANAL (BUM) SEX

You can have syphilis and not know it!
Syphilis is easily treated with antibiotics.
Get Tested.

If not treated during pregnancy,
it can be passed to an unborn child.

**TO PROTECT YOURSELF, USE A CONDOM
OR SEX DAM WITH ALL SEX ACTIVITY.
GET TESTED EVERY 3 – 6 MONTHS.**
